Profile

Experienced designing digital products across fintech, govtech and startups, combining UX strategy, research and UI systems to create clear and scalable user experiences. Recently focused on conversational products, complex workflows and AI-assisted design processes.

Professional Experience

• Certezia.app - Product Designer — Jan 2026 - Mar 2026

Redesigned a peruvian signing experience, improving clarity and reducing friction in a technically complex NFC authentication flow, using physical ID (Peru's DN1e).

- Redesigned the critical signing flow, improving continuity and error recovery.
- Designed UI systems, contextual guidance and usability-tested interactions using Lookback and Maze.

Impact: +80% usability improvement · -40% steps in the critical flow

• Pablo (Komu AI) - Co-founder & Product Designer / Project Manager — 2025

Co-created an AI-powered financial assistant for WhatsApp focused on conversational money management.

- Led product strategy, conversational UX and the overall digital ecosystem.
- Managed a multidisciplinary team using agile and data-driven workflows.
- Designed the landing page, dashboard and core product experience.

• Karway - Product Manager — Jun 2024 - Jul 2025

Led product strategy and UX initiatives for an automotive marketplace platform.

- Defined roadmap priorities and improved the vehicle search and purchase experience.
- Coordinated cross-functional collaboration between design, business and development.
- Conducted usability testing and iterative product validation.

Impact: +55% conversion improvement in the new digital experience

• MINSA / Digital Humans — UX/UI Designer — Jan 2022 - Sep 2022

Redesigned Peru's COVID-19 vaccination certificate app used by millions of citizens.

- Designed a mobile-first experience focused on accessibility and low-end devices.
- Improved information architecture and interface consistency.
- Designed design system and scalable UI foundations for a high-impact public product.

Impact: Used by +10M citizens across Peru
