Jay Farfán.

PRODUCT DESIGNER · QUITO, ECUADOR

jayf@digitalhumans.design +593 968 662 667 jayfarfan.com linkedin.com/in/jayfarfan

PROFILE

Peruvian Product Designer based in Quito, with experience across fintech, govtech, marketplaces and e-commerce in Peru and Ecuador. Trained as a civil engineer and co-founder of DIGITAL-HUMANS. I connect research, product strategy and UX/UI: understand the problem, validate with users and collaborate closely with Product and Engineering. Results include **150% growth in paid-plan adoption**, **55% higher marketplace conversion** and a public app used by **over 10 million people**.

PROFESSIONAL EXPERIENCE

Co-founder · DIGITAL-HUMANS

2021 to Present

UX and product strategy consultancy · Fintech, govtech, marketplaces and e-commerce

- Co-founded and lead a consultancy delivering UX research, product strategy and UX/UI design for startups and companies with digital products: **more than 15 client projects**.

PROJECTS WITH DIGITAL-HUMANS

Product Designer · Certezia

Jan 2026 to Mar 2026

Digital signing with electronic national ID (DNIe) and NFC

- Redesigned the DNIe and NFC signing flow into three stages (Document, Identity and Signature), separating what users needed to understand from the physical actions required: **40% fewer steps** and a **reported NPS of 8/10** in user testing.
- Designed states and recovery paths for PIN, NFC and document errors; validated with users through Lookback and Maze; confirmed SDK capabilities with Engineering before finalizing decisions.

UX/UI Designer · Peru’s Ministry of Health (MINSA)

Jan 2022 to Sep 2022

Official COVID-19 vaccination record app

- Redesigned an app used by **over 10 million citizens**. Researched the phones, operating systems and screen sizes most common in Peru, starting with low-end devices to deliver an accessible, mobile-first experience.
- Improved the information architecture and designed a scalable Design System.

Product Designer · KindBerry

2024 to 2025

- Designed a premium children’s clothing e-commerce experience from research to UX/UI, including benchmarking, archetypes and business goals.

Product Designer · Diners Club Ecuador

2026

Mobile banking app · Experience team

- Redesigned a self-service financial product flow in the mobile banking app, enabling more direct access and bringing multiple products into a single journey.
- Aligned business rules and scope with Product, Technology, Legal and Marketing; designed digital processes with a consistent error-handling pattern.
- Conducted field research with **17 customers** and branch advisors; mapped and prioritized **over 50 friction points** and translated them into priorities for Technology.

Co-founder & Product Designer · Pablo (Komu AI)

2025

AI financial assistant on WhatsApp · usapablo.com

- Co-founded an AI financial assistant on WhatsApp and defined product strategy, conversational UX and the digital ecosystem: landing page, dashboard and core experience.
- Led a multidisciplinary team using agile methods and data-informed decisions; owned the end-to-end design process, from in-depth research to MVP.
- Result: **150% growth in paid-plan adoption** during the first three months after the new version launched.

Product Manager · Karway — Jun 2024 to Jul 2025

New-car marketplace

- Defined product strategy and roadmap priorities; redesigned vehicle search, comparison and quotation journeys, achieving **55% higher conversion** in the new digital experience.
- Coordinated Design, Business and Engineering, using usability testing and iterative product validation.

EDUCATION

Civil Engineering · Universidad Peruana de Ciencias Aplicadas (UPC) — 2015

CERTIFICATIONS & TRAINING

Platzi · Product design, UX and agile courses — 2020 to 2025

Research & AI: CX Research and UX Testing (2025); ChatGPT for Product Designers (2025).

Design & product: UI/UX Fundamentals (2021); Design Thinking with Minds Garage (2021); Effective Design Systems (2020); Professional Scrum (2021); User Stories in Scrum (2022); CRO: Conversion Rate Optimization (2025).

Development: HTML and CSS; Basic JavaScript; Git and GitHub (2020).

Communication: Giving Feedback; Receiving Feedback; Managing Up (2025).

McKinsey.org Forward Program · McKinsey & Company — 2026 (In progress)

10-week program covering structured problem solving, effective communication and adaptability.

SKILLS

Product strategy: Product discovery, prioritization, roadmaps, MVPs, business and user alignment.

Research: Interviews and fieldwork, moderated and unmoderated usability testing, journey mapping, benchmarking, archetypes and insight prioritization.

UX/UI: User flows, information architecture, high-fidelity prototyping, Design Systems, accessibility and UX writing.

Engineering collaboration: States and edge cases, development handoff, technical validation before design decisions, Agile/Scrum, collaboration with Business and PMO, workshop facilitation.

AI in design: Claude, ChatGPT, Lovable and Lookback Eureka AI for research synthesis, exploring alternatives and prototyping.

Technical foundations: HTML, CSS, basic JavaScript, Git/GitHub.

Tools: Figma, FigJam, Maze, Lookback.

Industries: Fintech, marketplaces, e-commerce, govtech, insurtech.
